

GMO AND THE MIXING OF SEED AND ANIMALS

I wish that I could take credit for the idea that I am about to write about, but I cannot. I have to give credit to a speaker on a radio station called Hebrew Nation Radio, that broadcasts on 1220 AM out of Salem, Oregon.

It is no secret that I lean toward the Messianic Movement where my faith is concerned. Please allay all caution from what I have just said. I hold all of the foundational beliefs of Orthodox Christianity (the Apostles Creed for example) but I choose to also celebrate Jewish festivals, to eat Kosher and to honor Saturday as being the one and only Sabbath. I also honor the Torah and think that it is still valid for today, although I do believe that there are certain Laws that have been fulfilled in Yeshua, for instance, the Law of Sin and Death have been fulfilled through the washing by His Blood for all who believe in Yeshua and His Godly Resurrection. Whereas I do believe that the Torah is valid for today I realize that it speaks of life applications for today. I believe that the Torah covers laws that if we are obedient, will keep us from making the mistakes that were made all throughout history to those who either did not know Yahweh's expressed desire for mankind and/or those who just didn't care.

Yeshua made it clear that upon His return that the world would be in the same condition that it was at the time when Noah lived. We remember that the world was so debased that it had to be obliterated. We've talked about the Nephilim ad nauseam in recent years and we've talked about how debased mankind was, and we've talked about the mixing of animals before the flood and in our current day, but what about the mixing of seed? We haven't talked about that much.

If you get onto the internet at all and you read "real" news stories, not those contrived by the big democratic networks, you have probably come across one or two articles regarding GMO foods. To start, I think that it is important to define what GMO means. There are so many anti-GMO websites out there (thank Yahweh) and definitions vary as to what GMO foods are, and that is understandable because it is a very emotional subject. While I do not like to use governmental sites to define anything I searched and found that the World Health Organization has a fair definition. While I do not agree with their assessment of the safety of GMO foods, they define it correctly:

Genetically modified organisms (GMOs) can be defined as organisms (i.e. plants, animals or microorganisms) in which the genetic material (DNA) has been altered in a way that does not occur naturally by mating and/or natural recombination. The

technology is often called “modern biotechnology” or “gene technology”, sometimes also “recombinant DNA technology” or “genetic engineering”. It allows selected individual genes to be transferred from one organism into another, also between nonrelated species. Foods produced from or using GM organisms are often referred to as GM foods. [Source: http://www.who.int/foodsafety/areas_work/food-technology/faq-genetically-modified-food/en/]

What we get from the definition above is that it is genetic manipulation and that it is unnatural. When we read the pages of the Book of Genesis, we see something interesting in chapter six. Of course, this is the chapter that talks about the Nephilim who were the offspring of the fallen angels and human women. So, right from the start we see that at least the first few verses of the chapter talk about unnatural genetic corruption and the result thereof. However, there is something else that is interesting if we look at it and study it:

And God saw that the wickedness of man was great in the earth, and that every imagination of the thoughts of his heart was only evil continually. And it repented the Lord that he had made man on the earth, and it grieved him at his heart. And the Lord said, I will destroy man whom I have created from the face of the earth; both man, and beast, and the creeping thing, and the fowls of the air; for it repenteth me that I have made them. Genesis 6:5-7

I always wondered why Yahweh would want to destroy all of the animals and creeping things and the birds. I always pondered that it was mankind that fell and the animals were really innocent victims of what man had done. What did the cattle, the reptiles, the birds, the ants and worms do to cause Yahweh to repent making them? In addition, it always bothered me that Yahweh REPENTED doing something. The very notion that Yahweh “repented” makes it sound like He is not perfect in nature. Let me tackle the second concern first. It is important to remember that the Bible was translated by men and men are fallible. Just about every Hebrew word has a variety of synonyms, words that can be used in an application. However, just like in any language, the word has to fit the context of the idea that is being presented. A good English example would be a group of words that are found in the Christmas song, “Deck the Halls.” In that song the celebrants are exhorted “don we now our gay apparel.” Up until the 1960’s the word “gay” meant happy, but in the 60’s the word was bastardized to mean homosexual. So it is not inconceivable to think that someone born after the 1960’s would assume that homosexuals have always accepted and participated in the practice of Christmas because of the word in the song. That is a mistranslation. In the same way, when we see the word “repenteth” in the scripture above it makes it appear that Yahweh realized that he made a mistake, but that is not

what the word means in the context that is being presented in that scripture. The word for “repenteth” in that scripture is:

Repenteth – נָחַם nâcham

to be sorry, console oneself, repent, regret, comfort, be comforted

1. *(Niphal)*
2. *to be sorry, be moved to pity, have compassion*
3. *to be sorry, rue, suffer grief, repent*
4. *to comfort oneself, be comforted*
5. *to comfort oneself, ease oneself*
6. *(Piel) to comfort, console*
7. *(Pual) to be comforted, be consoled*
8. *(Hithpael)*

1. *to be sorry, have compassion*
2. *to rue, repent of*
3. *to comfort oneself, be comforted*
4. *to ease oneself*

The best way to render the word “repenteth” in the scripture above is to use the definition, “to be sorry, have compassion.” Let me explain. Yahweh made mankind to be a special creation, one that He made in His own image, in the way that He imagined and hoped mankind would turn out, but he also gave us free will. When Yahweh says that he “repenteth,” he was in essence saying something like this, *“I made you and I had the best intentions for you, but you always go out of your way to disobey me. I see that all of your thoughts are evil each and every second of every day. I love you and I cannot allow you to get worse and worse, because that is what is happening to you and there is no changing you. Therefore, I have to destroy your flesh to keep you from destroying the earth.”*

We are told in scripture that Yahweh created the Earth and the universe. His creation belongs to Him and He doesn’t like those who destroy his creation, especially when it is His creation that is destroying His creation. We see an illustration of this in Revelation:

And the nations were angry, and thy wrath is come, and the time of the dead, that they should be judged, and that thou shouldest give reward unto thy servants the prophets, and to the saints, and them that fear thy name, small and great; and shouldest destroy them which destroy the earth. Revelation 11:18

What does “destroying the earth,” actually mean? What is the earth anyway by definition?
Let’s look at the Hebrew word for Earth:

Earth: אֶרֶץ 'erets

land, earth

1. *earth*
1. *whole earth (as opposed to a part)*
2. *earth (as opposed to heaven)*
3. *earth (inhabitants)*
2. *land*

1. *country, territory*
2. *district, region*
3. *tribal territory*
4. *piece of ground*
5. *land of Canaan, Israel*
6. *inhabitants of land*
7. *Sheol, land without return, (under) world*
8. *city (-state)*
3. *ground, surface of the earth*
1. *ground*
2. *soil*
4. *(in phrases)*
1. *people of the land*
2. *space or distance of country (in measurements of distance)*
3. *level or plain country*
4. *land of the living*
5. *end(s) of the earth*
5. *(almost wholly late in usage)*

1. *lands, countries*

1. *often in contrast to Canaan*

As you can see, the word “*eretz*,” has many applications and again we have to look at the context. Yahweh is going to be angry of course with those who destroy the physical land which

means also the planet, including the seas which are part of the physical earth. In addition, the land contains trees and all plants as well as all of the earth dwelling creatures, and also the animals in the sea because they are part of the world, the entire globe.

Again, we have to remind ourselves that Yeshua said that when he returns the conditions on Earth will be as they were in the days of Noah. We know that before the flood mankind, probably with the help of the fallen angels, practiced genetic manipulation:

And all the sons of men departed from the ways of the Lord in those days as they multiplied upon the face of the earth with sons and daughters, and they taught one another their evil practices and they continued sinning against the Lord. And every man made unto himself a god, and they robbed and plundered every man his neighbor as well as his relative, and they corrupted the earth, and the earth was filled with violence. And their judges and rulers went to the daughters of men and took their wives by force from their husbands according to their choice, and the sons of men in those days took from the cattle of the earth, the beasts of the field and the fowls of the air, and taught the mixture of animals of one species with the other, in order therewith to provoke the Lord; and God saw the whole earth and it was corrupt, for all flesh had corrupted its ways upon earth, all men and all animals. And the Lord said, I will blot out man that I created from the face of the earth, yea from man to the birds of the air, together with cattle and beasts that are in the field for I repent that I made them. Jasher 4:16-19

I don't see it as coincidence that the events that occurred before the flood are occurring now. Yeshua said that it would be this way and His word is true as we witness his prophecy coming true today.

Okay, so we see that there was a mixture in animals and such, but what about other things? We know that the fallen angels had sexual relations with human women creating the Nephilim. One rendition of 1 Enoch states:

Then they took women, each choosing for himself; whom they began to approach, and with whom they cohabited; teaching them sorcery, incantations and the dividing of roots and trees. And the women conceiving races first, the great giants. The giants brought forth the Nephilym, and the Nephilym brought forth the Elioud. And they existed, increasing in power according to their greatness. Whose stature was three hundred cubits. These devoured all the labour of men; until it became impossible to feed them; When they turned themselves against men, in order to devour them; And began to injure birds, beasts, reptiles and fishes, to eat one another's flesh and to drink their blood. Then the earth reproved the unrighteous. 1 Enoch

I am one of those people that believe that the Torah (The Law) was given to the Sons of Jacob because within those Laws are prohibitions of things that occurred before the flood; it was those things that corrupted man and caused Yahweh to be sorry that he made mankind. It is very easy to see that if a person disregards the Torah they will eventually become like the people before the flood were, corrupt and having evil imaginations in their hearts continually. It is easy to ascertain that before the flood each and every one of the Ten Commandments were violated willingly and wantonly.

We find in Torah one little scripture that opens up a can of worms where GMO foods are concerned.

Ye shall keep my statutes. Thou shalt not let thy cattle gender with a diverse kind: thou shalt not sow thy field with mingled seed: neither shall a garment mingled of linen and woollen come upon thee. Leviticus 19:19

This verse can seem a bit confusing. It appears that there is a prohibition of crossing cattle with other cattle. This could make sense because some cattle are raised for milk while others are raised for beef. Mixing those types of cattle could cause the elimination of one trait or another. In other words, breeding milk cows with beef bulls could eventually eliminate milking cows or beef cows creating an extinction of sorts of one of the types. Yahweh created milk cows for milk and beef cows for beef.

In the same way it would be inappropriate to mix two different types of seeds together. Take for instance mixing wheat and barley seeds in one field. You would end up with two crops that could not be harvested easily plus they would ripen at different times creating more of a hassle. Imagine planting potato's and beets in the same field; what a mess that would be.

Making a garment out of wool and linen (cotton) would be impractical. Have you ever stuck a wool sweater in the dryer to find out later that it shrunk two or more sizes? That is what wool does, it shrinks much more drastically than cotton does. Imagine the mess that a cotton/wool blend would be when you pulled it from the dryer.

Of course, the prohibitions in the day of the ancients would have ancient implications as well as conventional ones. Yahweh likes variety and he created it for a reason. Cross breeding often comes with problems. For instance, you can crossbreed a zebra and a horse and get something called a zorse, but that offspring is always sterile and, in most cases, when like

animals are crossbred, they do end up sterile. In the sacrificial laws all of the atoning sacrifices were made using animals; Yahweh prefers the higher order of creation for sacrifice. Abel sacrificed a lamb and Cain offered gleanings from his fields. Abel's sacrifice was accepted while Cain's was not accepted. Things are not meant to be mixed, especially when it comes to species (kinds) or genus.

Since it appears that there was genetic manipulation before the flood and in our current day, the scripture from Leviticus takes on a whole new meaning, or perhaps the modern-day meaning was the original intent of Yahweh when he had Moshe pen those words. We constantly hear about oddities that geneticists are creating. A few years ago, we saw a picture of a human ear grown on the back of a mouse. Another report came out of glow-in-the-dark rabbits. Scientists injected DNA from jellyfish into the embryos of a mother rabbit which produced offspring that glowed in the dark. It seems that the sky is the limit when it comes to creating oddities that were never meant to exist. Could the dinosaurs have been the product of gene manipulation before the flood? What about the supposed "pre-human ancestors" that some archaeologists have found in Africa and other places? Could such creatures have been the result of humans melding human DNA with ape DNA before the flood? Then we have the Greek mythological creatures like the Minotaur and the Centaur, the Unicorn and even the Cyclops. Were they memories of the sages regarding creatures that existed before the flood, or dare I even suggest right after the flood?

When the scripture in Leviticus talks about mixing diverse seeds could it be alluding to our present-day practice of creating GMO seed? GMO seed is created by manipulating seed by adding DNA from other plants and yes, even from animals. What is horrifying is that you cannot get an ear of GMO corn and plant the corn kernels because GMO corn kernels are sterile. Even more concerning is that it is getting increasingly hard to find original seed that will produce offspring plants that will produce usable seed.

Like so many other Torah instructions that have been ignored or dismissed, the ones prohibiting mixing of animals and seeds are being forsaken. What is tragic is that for the most part, Christians just ignore the GMO debacle as well as many other things that Torah tells us to avoid. Our words and actions have power and so many believers fail to recognize that. I hear from so many Christians that "Jesus abolished the Law (Torah) on the Cross so it is no longer in effect." That very statement negates all of the Ten Commandments as well as the social laws and Festive and Sabbatical laws, all things that should still be in effect. I hear, "we're under grace brother, no longer under the law," from people that can't figure out that grace is given because

the Law is still in effect. If the law was gone there would be no need for grace. Grace exists as a forgiveness factor given to us because we still offend the law.

Defiance of the Torah is killing us all. Those intent on killing us seem to be deliberately offending the Torah and they do it because they know that Torah is life and killing Torah kills life and all under Torah. Our society is spiraling toward anarchy, anarchy being the absence of Law. The Tanakh (Old Testament) is alive and is still effective and by ignoring it people tend to make the same mistakes that mankind has made over and over again throughout history. A Twenty First Century Holocaust is about to occur and the victims are everyone in the world that is not of the Elite class. They're slowly killing humanity with tainted food, tainted air and tainted water, and it is all planned, not accidental.

I exhort you, that if you do not have Yeshua as your Lord then you need to do some serious soul searching and you need to start asking Yahweh Yeshua to reveal himself to you. The aim of the Illuminati is to rid the world of 6.8 billion people and you're probably included in that number. Those who are not destroyed will be slaves for the Elites. Scripture says that 2/3 of mankind will be destroyed in the tribulation that is to come. Yeshua said that he is going to have to shorten time because if he didn't, no flesh would survive. It's time for many to have what is called a "come to Jesus meeting" and it is better to do it now when you can prepare for these end times than it will be to go through all of the heartache without hope and promise of eternal life. What better time than now.
