

GEMATRIA PROFILE

HILLARY DIANE RODHAM

By David Ben Ya'akov

The following words were numeric word matches in the Hebrew Gematria. I present it as a possible reference to the character of Hillary Diane Rodham Clinton, both things known, and maybe things hidden from the general public.

Rays Birth – Ray Merriman is a stock market analyst. He put out a video a few years ago (after Hillary Clinton lost the election of 2016) that talked about the fallacies and problems that result when consulting the stars to predict the result of elections. The video makes it sound like he's on the fence when it comes to astrology, so I would never take market advice from this man. In determining the results of anything by using the stars to predict events and analyze people some things need to be gotten correct in the data crunch, which you will see can never result in an accurate prediction. These things are:

- Correct Birth Time – The Exact hour and minute and what time zone that the stars prefer [sic]
- Determining the correct charts to use – Who has the right chart, and is there a “right” chart?

- The astrological issues of determining a winner: most popular votes versus most electoral college votes – this confuses most people aside from the astrological implications [sic]
- The role of personal bias. – Is the predictor a liberal or conservative. If all other tests passed this one would fail. Bias rules.

In any regard, consulting the stars for anything is a foolhardy thing to do. Astrologers tend to work in a different universe than regular people do. By this, I mean that anyone else who would predict an event or two and get it right is considered a soothsayer of high caliber, even though they crashed and burned on hundreds if not thousands of false prophecies. Truthful people, who get things right 99.99999% of the time and get one thing wrong is seen as crocks and false prophets.

The Geomatrix Men – As best as I can tell this is another name for the NSA. As you might well know, the NSA records everything that is said on any electronic device, and probably many more things that we are not aware of. They don't call them "smart TVs" for nothing, right? This phrase is Hillary Clinton's worse nightmare because the Geomatrix is defined as: *"GeoMatrix is a unique SS7 protocol-based solution that enables intelligence and law enforcement agencies the ability to locate, track, and manipulate GSM / UMTS / 3G / 4G (LTE) subscribers covertly virtually anywhere in the world, all in real-time using a very friendly GUI and with flexible capabilities of GIS mapping."* Enough Said?

Match Ophiuchus – Ophiuchus (The Serpent Bearer) is a constellation in the Zodiac. The sun is usually in Ophiuchus between November 21 and December 21 of any given year. Ophiuchus is known as the 13th astrological sign (depends on the source). Knowing that Hillary Rodham Clinton practices the Wicca religion and is quite advanced within such, it has to be that she worships Lucifer in some fashion, and her apparent practice of bloodletting by human sacrifice confirms that fact, so much so that crossing her has gained her perspective victim as being prepared to be Hillaried.

Jerome – Jerome Corsi is a leaker who leaked that Hillary Clinton had physical and/or mental problems and would not be fit for office. As of this writing, Corsi is still alive, which is almost miraculous since he released dirt on a Clinton.

Alvin – Alvin Form is a liberal journalist who has worked closely with Hillary Clinton. He has written pieces that are intended to correct lies and mistakes that have arisen from the Clinton political machine and is a close friend of the Clintons.

Adding Q to A Phrase Is Demonic – While no quote can be found attributing such a phrase to Hillary Clinton it would be remiss to write this off as rhetoric. Qanon has posted a lot of truth about HRC and I'm sure that if Hillary could find out who the real Q is, he or she would be in a body bag before the day is over.

Six of Clubs – I will just refer to the next phrase. However, if you notice that there are two number 6's on the card and there are 6 club symbols that equal 666.

Lucifer's Number – Manly P. Hall, a highly esteemed author, and 33rd degree Mason stated that the number of Lucifer is 741. He did not elaborate because doing so would be contrary to Masonic established rules and regulations regarding the dissemination of too much information. The Bible says that the Antichrist will worship the god of fortresses, meaning that he will be associated with Mars or Aries, and since he's the god of lies and deceit, Satan falls into this category.

The Grey Aliens – Pretty self-explanatory seeing that the Gray Aliens are fallen angels that guide their puppets and give them the means to accomplish the deeds of their lord, namely Lucifer or Satan. Hillary is a high-level Wiccan.

First Fruits – In Biblical terms, these are the first and best yields of the crop or animal that are offered for sacrifice. With the knowledge that Hillary is a Wiccan/Satanist, it would stand to reason that this refers to her human and/or animal sacrifices. Also, it is common knowledge that Hillary has had quite a few people killed, each kill in the Satanic realm is considered a sacrifice. Every sacrifice, according to Satanic tradition makes the one performing the sacrifices (or ordering them) higher on the power scale.

Lov – An Acronym for “Letters of Verification,” this might have something to do with her E-Mail scandal or it could be verifications sent to her to verify that the sacrifices that she has ordered have been accomplished.

Ancient Egypt – Ancient Egyptians ascribed gods to the forces of nature. Wiccans do the same thing.

Secret Art Master – Again, proof that Hillary is a high-level Wiccan/Satanist and has reached the master level.

Six Tiphareth – This is a term used in Kabbalah. It is defined as; In the Bahir, it states: "Sixth is the adorned, glorious, delightful throne of glory, the house of the world to come. Its place is engraved in wisdom as it says 'God said: Let there be light, and there was light.'"

Tiferet is the force that integrates the Sefira of Chesed ("compassion") and Gevurah ("Strength, or Judgment (din)"). These two forces are, respectively, expansive (giving) and restrictive (receiving). Either of them without the other could not manifest the flow of Divine energy; they must be balanced in perfect proportion by balancing compassion with discipline. This balance can be seen in the role of Tiferet, wherein the conflicting forces are harmonized, and creation flowers forth. Tiferet also balances Netzach and Hod in a similar manner. In that case Hod can be seen as the intellect where Netzach is seen as emotion.

The Names of God associated with Tiferet is Tetragrammaton Eloah Va Daath. The Archangel of this sphere is Raphael. Melachim(kings) is the Angelic order associated with Tiferet, and the planetary/astrological correspondence of Tiferet is the sun. The Qliphah of Tiferet is represented by the demonic order Thagirion, ruled by the Archdemon Belphegor. The symbol associated with this sphere is a majestic King. Tiferet also occupies a place on the middle pillar, and can be seen as a lower reflection of Kether, as well as a higher reflection of Yesod and Malkuth. Tiferet relates to the sun, and as such, it takes a central place in the lower face of the Tree of Life, much in the same manner that the sun is at the center of the solar system. It is not the center of the universe, as one could perhaps argue Kether to be, but rather it is the center of our local astronomical system. Nonetheless, it is the sun that gives light and life, even though it did not create itself. Tiferet can be seen as a metaphor for these same attributes.

Tiferet is unique amongst the Sephirot as it is connected to all the other Sephirot (except Malkuth) via the subjective paths, be them conscious or less conscious. Its position down the center between Keter and Yesod indicates to many Kabbalists that it is somewhat of a "converting" Sephirot between form (Yesod) and force (Keter). In other words, all crossing over the middle path via Tiferet results in a reversed polarity. The law of conservation, valid both for energy and

mass, tends to corroborate this – in all cases of energy transmutation, as it may happen in the transmission of gifts and goods from parents to their children, a sacrifice is necessary so a new form may be born.

Tiferet is the middle of the tree. Five Sefirot surround it: above are Chesed at the right (south) and Gevurah at the left (north), and below are Netzach at the right, Hod at the left, and Yesod directly below.

Together these six are a single entity, Zer Anpin, which is the masculine counterpart of the feminine sefira Malkuth. In certain contexts, Tiferet alone represents all the sefirot of Zer Anpin, so that the entire tree appears with only five sefirot: Keter, Chochmah, Binah, Tiferet, and Malkhut.

In both the Jewish and Hermetic trees of life, Tiferet has eight paths, leading (counterclockwise) to Keter (through Daat), Binah, Gevurah, Hod, Yesod, Netsach, Chesed, and Chokmah.

Spyros – This is a Greek word defined as; As a Greek name, Spiro may also be spelled Spyro. It comes from the Greek Spiros/Spyros/Speros (Greek: Σπύρος), with a nominative final "s" that is usually dropped when Anglicised. It is a male-given name fairly common in the Greek-speaking population (Greece especially in Corfu whose patron saint is Saint Spyridon, in Cyprus, Greek diaspora) as well as among the Christians of Lebanon where it is a common first and last name. It is a shortened form of the archaic-sounding

Spyridon (Σπυρίδων), which means in ancient Greek "basket used to carry seeds" (Σπυρί, grain, seed). The Greek diminutives for Spirydon are Pipis (Πίπης) and Pipeto (Πιπέτο).

In effect, the Bible talks about a sower of seed that sows bad seed in with the good seed that the sower sows which causes tares to grow with the wheat. When Yeshua refers to the evil sower, he is referring to Satan and the seed that is sown is a satanic seed. Hence, the meaning could be that Hillary is a satanic seed (a tare) that grew up with the wheat but in the end, is being revealed as serpent seed rather than Godly seed. It could also refer to Hillary as being the basket that contains bad seed.

VQ – This is a military designation for the reconnaissance squadron. It is a fact that there were reconnaissance drones in the area of Benghazi, Libya at the time of the attack. I found difficulty in researching which squadron the drones would have belonged to, but the fact that the situation was being monitored and Hillary knew what was occurring, but did nothing shows coverup and culpability of her as acting ambassador.

Jarred – Nothing found in connection with this spelling.

Elven – A word that means Elflike. Elves play into the Wiccan religion and are thought to be called upon to perform mischief against a Wiccan's adversaries.

Garmonbozia - The word for "Pain and Sorrow" in the David Lynch film "Twin Peaks: Fire Walk With Me". People's garmonbozia is collected and eaten by the demonic beings who inhabit the Black Lodge, and when they eat it, it visually resembles creamed corn.

The Emerald City – The city that housed the Wizard in the movie, "The Wizard of Oz." The theme of this movie is often used in MK Ultra training of people groomed by the CIA and other covert groups.

God Speaks Through – The word "God" here doesn't mean the God of the Bible, but the fallen cherub Lucifer.

Leven – Is simple past and past participle leavened. Leaven in Biblical terms refers to something that has been consumed by sin.

Master Leo Gurochan – No context to Hillary Clinton. Probably refers to someone with this name that has the same numeric value.

Pretzel – A term used by pedophiles. Hillary is known to have visited Epstein's island where children were used for nefarious purposes.

UN Sinks USA – The ultimate goal of Hillary, if she would have become president, was to destroy the USA and turn it over to the New World Order.

Be The You – A humanist term for transforming yourself from what you are to what you want to be.

Cannabis Ruderalis Herb – This is the third form of Cannabis. It is often combined with Sativa or Indica to help it flower under adverse conditions. Is it possible that Hillary is involved in this somehow, only God knows?

Jolt – This is a fascinating word because it could mean several things. If you type “Hillary Clinton Jolt,” into a search engine (at this certain time) you will find articles that talk about a jolt being positive or negative. Hence, a “jolt,” can mean something happens that brings her into a favorable light, or a jolt is brought about by bad news that brings her down below her baseline.

Therefore, it has been something found in headlines in the past, but that doesn’t mean that something will not occur to bring her favorability rating higher or lower. This is an active and living word that will probably be with her until the day that she dies, either by execution because of treason, or of a natural death (if not dead already) that will allow the gates of Torments to open very wide.

Yitammu – This is part of a Hebrew phrase which states: *“Again, in their commentary to the conclusion of Psalm 104, “yitammu chata’im min ha-’aretz” (“Let sin disappear from the land”), the Rabbis emphasize: “sin”, and not “the sinner.” [Source: <https://templeisraelva.org/news-from-rabbi/weekly-message-rabbi-panitz>]*

If you read the lesson that the Rabbi is teaching, he is talking about acceptance of Jews toward a convert to Judaism and how when the convert

comes it should be realized that nobody has led a righteous life and that it must be remembered that you don't throw the baby out with the bathwater. An examination of this passage might come across as being sympathetic toward Hillary Clinton, however, there is being born into sin (every human is) and being a person of perdition that manufactures ways to sin and creates murder to cover up her sin. Hillary can be compared quite aptly to Jezebel of Tanakh fame whose demise is that she fell off of a high wall and that dogs consumed her flesh, hardly the fate of someone who renounces sin and should be forgiven of it, therefore.

The Islamic Uprising – Probably no other number affiliation serves Clinton better than this one does. Hillary was Barack Obama's Secretary of State during part of his administration. At the time that she served, Ambassador Stevens went to Benghazi, Libya to investigate the sale of missiles to certain terrorist factions. I know, that's not the official story, but it is what happened. He was going out something that would expose Obama and Clinton in a treasonous act. Supposedly, the terrorists were tipped off and Stevens and several others were taken captive, tortured, and killed. Later evidence proved that Hillary knew that this was going to happen, and when the military received distress calls from Stevens and the consulate, the military asked to intervene to save Stevens and the others who were brutalized and killed. Their request was denied. Hillary later "cleansed" her email accounts of all correspondence regarding her implication, but copies

were kept by Wikileaks and most probably the NSA. Also, certain emails were found on the cell phone of Anthony Weiner, husband to Huma Abedin, the Iranian aid to Clinton.

Lightning Conductor – As you probably know, a lightning conductor is usually something that reaches toward the heavens bringing it closer to the source of lightning. It can be a tree, a flag pole, or a tall building. Hillary the Wiccan has attempted to reach the heavenly realm by practicing a religion that tries to assert that people can grow closer to godliness if they practice certain rites. Notice, I used a small letter “g” in that word, because the god that Hillary is attempting to be is one of nature. The goal of higher-level Wiccans is to gain power through worship and manipulation of nature. It’s a nasty religion where Wiccans of different colors (meaning demeanors, not races) all vie to be top dog.

Throughout Hillary’s life she has been a lightning conductor, metaphorically speaking. She was reprimanded by her boss during the Watergate hearings for being a bumbler. She and her hillbilly husband, Bill Clinton have cheated, lied, and murdered their way to the highest office of the Land, yet every accusation that has been brought against them has been forgiven by their base, their fellow politicians, and their god, Lucifer. Yes, she is a lightning conductor, but the lethal charge of the lightning bolt always seems to pass through her to affect those around her, and like the infamous John Gotti, she seems to be coated with Teflon. However, in the same manner that Gotti

was finally found out and convicted, so will be Hillary and Bill Clinton, hopefully well before they pass into the down elevator.

Symbiosis – Well, here is another word numeric value that truly describes Hillary Rodham Clinton. The word, Symbiosis, is defined as:

Symbiosis (from Greek συμβίωσις "living together", from σύν "together" and βίωσις "living") is any type of a close and long-term biological interaction between two different biological organisms, be it mutualistic, commensalistic, or parasitic. The organisms, each termed a symbiont, may be of the same or of different species. In 1879, Heinrich Anton de Bary defined it as "the living together of unlike organisms". The term was subject to a century-long debate about whether it should specifically denote mutualism, as in lichens; biologists have now abandoned that restriction.

Symbiosis can be obligatory, which means that one or more of the symbionts entirely depend on each other for survival, or facultative (optional) when they can generally live independently.

Symbiosis is also classified by physical attachment; symbiosis in which the organisms have bodily union is called conjunctive symbiosis, and symbiosis in which they are not in union is called disjunctive symbiosis. When one organism lives on the surface of another, such as head lice on humans, it is called ectosymbiosis; when one partner lives

inside the tissues of another, such as Symbiodinium within coral, it is termed endosymbiosis.

Goodness, where do we start? We'll keep it simple. Hillary likes socialism. She would love for the working class to support the higher classes through higher taxes, whereupon she would make the lower classes feel like she was taking care of them, this is sort of parasitical. Also, Hillary, being a Wiccan would love to place all other religions, especially those who will not recognize her as "Queen" into a lower class of religion where they would be subject to other religions, like Islam, which she seems to adore, although she doesn't seem to grasp that Islam would not recognize her as "Queen," and would not honor or respect her, therefore they would be eliminated before they could eliminate her. She is a rabid feminist and a lesbian which means that men would have to be relegated to a lower class of human beings and would become subservient to women. The list goes on and on and on.

Allahxandre Lessard – There are several people with this name that can be found by researching, but none appear to have any sort of researchable ties with Hillary Rodham Clinton.

SUMMARY

As I have shown, Hillary Rodham Clinton has some very interesting numerical equivalents associated with her. As usual, there were some

ambiguous names found and most of them were searches of names that other people placed in for sports figures and plain everyday people. My suggestion, if you do look up your name, do not save it to the directory. It just causes more work for serious researchers.

The Etymology of Her Name:

Hillary:

Hilary or Hillary is a given and family name, derived from the Latin hilarius meaning "cheerful", from hilaris, "cheerful, merry" which comes from the Greek ἰλαρός (hilaros), "cheerful, merry", which in turn comes from ἵλαος (hilaos), "propitious, gracious"

Diane: AKA: Diana:

Probably derived from an old Indo-European root meaning "heavenly, divine", related to dyeus (see ZEUS). Diana was a Roman goddess of the moon, hunting, forests, and childbirth, often identified with the Greek goddess Artemis.

As a given name, Diana has been regularly used since the Renaissance. It became more common in the English-speaking world following Sir Walter Scott's novel *Rob Roy* (1817), which featured a character named Diana Vernon. It also appeared in George Meredith's novel *Diana of the Crossways* (1885). A notable bearer was Diana Spencer (1961-1997), the Princess of Wales.

Rodham: From Roddam (Northumberland).

The word Rodham in the Anglo-Saxon language refers to the prefix Rod having several different usages including - 'clearing in the forest'; a 'raised river bed section' and 'area where osiers grow' with the Ham suffix related to living quarters of home, hamlet etc. The Scandinavian "Rödhamn" (in Aland) meaning 'red harbour' is also close enough to show toponymic evolution from the northern Germanic.

Conclusions:

We can see that it is quite clear that the name "Hillary" defines as cheerful. She appears that way in public, but those who have seen her in private say that she is a wicked and vindictive person that throws temper tantrums.

The name Diane derives from the Roman, Diana and fits perfectly with the definition of Moon Goddess. Interestingly, Allah denotes the Islamic mood god. Maybe that is why she seems to have a love affair with Islamic peoples. It is also notable that being a Wiccan, and a high order one at that, she would celebrate Wiccan sabbats, (AKA Satanic special days) which are celebrated during full moon periods of the year.

Lastly, the meaning of her Surname (maiden) is interesting. Put together it means, a hamlet that is in the clearing of the forest where the willow grows. Willows are one of several trees revered by Wiccans. They are one of the 9 sacred woods burned in a bonfire. They were used for healing properties and

for making potions. Their tender branches were used to weave into wicker baskets which were said to symbolized and/or held a "woman's mysteries." It appears, judging by Hillary's preference for Wiccan ritual and tradition, that the name Rodham has brought down through the generations a Wiccan bloodline.

So, her name could be summed up by saying, "The Happy Girl [sic] who is named after the moon goddess and whose family line is Wiccan and it originated in a home that was in a clearing in a forest where the sacred willow tree grew, a tree that was used in Wiccan celebrations and mysteries."
