

I Guess That We Were Being Watched in The Desert Near Roswell

To any of you who don't know the story, let me tell it to you in brief.

In December of 2005 I expressed a desire to go to Roswell to attend the "Ancient of Days" conference. I saw the line-up of speakers and wanted to hear what they had to say. Many of them were speaking from a Biblical aspect and that interested me, seeing that I had already been a freelance Christian UFO Investigator for many years. Hearing that I wanted to go, a man named Joe Jordan, who said that he was interested in my work asked me if we could share the expense of a rental car and bunk together. I had already read up on Joe and thought it would be a way to save money and meet this other researcher. I also wanted to meet a man named Jim Wilhelmsen, whose work, which seemed to be outlandish at the time, still interested me.

I schlepped down to Albuquerque where I hooked up with Joe. We went out to get the midsize car that I had reserved and was met outside by a clerk who offered us a big Ford SUV at no extra cost. I accepted this offer of course after which we proceeded down to the place where all of the kooks and nuts hung out, or so we thought. We found out that a lot of Christians, or those who call themselves by that name also went down to Roswell to get answers. I met a few people whom I admire and three or four that I wish I had never met. It's hard having the discernment of the Ruach Ha Kodesh around people who do not have this gift. I basically knew who the snakes were and who were true believers in Yeshua and had I tried to tell any of these new associates, whom I had just met what I had discerned, it would have caused them to label me as a troublemaker.

On or around the 4th of July in 2005 we met early in the morning with Dave Flynn, his brother Mark and others who came to Roswell with them. We were all heading out into the desert to the coordinates that David had calculated to be the actual crash site in 1947. David came to the coordinates by the use of sacred geometry which he asserted the enemy uses. In other words, break their math code and you could understand many things that the elites are doing. David explains it on the video that we recorded of him. It is [located here](#) if you want to check it out on YouTube.

We were off to the desert on a day when the temperatures were forecast to go well over one hundred degrees. We followed David whose brother Mark carried a high-grade GPS detector. Almost there, we had all of the guys pile into the SUV because the little car that David

rented was not able to handle the ruts in the dirt road. We finally got close and parked the car; hiking in a couple of miles, aided by Mark's GPS device. We got the first clue that we were not welcomed there when Mark's GPS, which was tracking about nine satellites all of a sudden lost all of those satellites. The GPS was working fine but the satellites blinked out; and this happened twice. Mark assured me that it was basically impossible for that to happen. We noticed something else too; something that made me know that we were on the right track. It was very hot that day; however, our trek both in and out of the area found us covered by a layer of thin clouds that blocked a lot of the sun and made the journey more tolerable. When we got to the site the clouds disappeared and in a likewise fashion, they did when we returned back to the truck. At the site there was a strong breeze that kept us cool the whole time that we were there. Yes, even though the enemy didn't want us there, YHVH wanted us there.

So why would YHVH want us at the crash site? Why go to what many know to be an enemy stronghold? I asked myself that same question our first night in Roswell. I felt the unction of the Ruach Ha Kodesh to write something for our next day's travel to the desert. I said, "YHVH, all we're doing is going out to the desert to see if David's calculations were on par with what happened in that desert back in 1947. Why write something?" The answer came as I started to write.

Bless this land Lord. Turn it again unto thyself. Turn around all evil perpetuated by this place and the events that happened here and bring about good. Sanctify this land so that only Your Name will be magnified by its remembrance.

For many years this place has been associated as 1947. We proclaim it to be a symbol of 1948, which is when your prophetic time clock started again ticking. We proclaim it as a sign of the coming of the Son of Man.

We pray for a renewal for Roswell and all of the surrounding area. We pray for changed hearts and renewed minds. In the Name of Yeshua we claim Roswell for you. We place your banner over her residents. We claim her elected officials for you. We claim that her attraction toward Babylon will become an abhorrence of evil. We claim her occult businesses for you, that they may turn and become outlets of Holiness.

We stand here on this land in recognition that when two or more are gathered in Your Name, you are with us. We also recall your promise, that whenever we ask our Father

anything in Your Name, we can rest assured that that purpose will become a reality...Amen.

We were going into the desert to perform Spiritual Warfare so that in time, YHVH would possess Roswell. Someday Roswell, the bastion for everything UFO, would become the bastion for YHVH.

We Were Not Alone:

What I wrote above can be found on our website but what I'm about to present is brand new; at least it is to me.

I got an email from a man named Doug and in the course of his text he asked me if I had ever noticed that the video that I posted on YouTube actually had two UFOs in it? I wrote back and asked him where. He said that it was around 7 seconds and also 20 seconds into the video. I found the video on my computer and ran it through a movie making software and sure enough, they were right at the times where Doug said they would be. The first still shot shows a disk which is traveling so fast that in one frame it is to the left of David Flynn and in the second still picture it is leaving the frame, to the upper right:

Below is the second picture with the object leaving the frame in the upper right:

In the following picture a small “hockey puck” shaped UFO is just to the left of David’s face:

Of course, it is the contention of some that these “craft” are not real; that they are psychic manifestations at best, as are the abductions of people. Well, the camera doesn’t lie. These two objects sped through the frames very quickly, and invisible as far as we were aware, only to be caught on camera.

I regret so much that David Flynn never lived to see the objects that have been found in this video. I know that the presence of two different objects right at the beginning of this video would only prove to him more that his calculations were correct. The place that David’s calculations led us to is of high importance to the enemies of YHVH. The thing is that now this piece of land, along with the whole area of Roswell have been claimed for YHVH, in the name of Yeshua Ha Mashiach, so it severely hampers what the enemy wants to do there and also it causes everything that is done by the enemy to be used by YHVH for His purposes and His finality in the history of the time/space continuum.

I have a feeling however, that when David passed from this life and into eternal life, that YHVH Yeshua told him all that happened that day. David is one up on us because he has probably seen the end of all things like our Yeshua has. The mind that David was blessed with was incredible. Many people covet to be blessed in such a manner. David asked for wisdom and he was given incredible wisdom. He yielded himself to YHVH to be used in wonderful ways and YHVH honored David’s surrendering of will to Him.

And in addition to all of this, YHVH is even more amazing, because in his infinite wisdom YHVH made it so that David was born along with an identical twin whose name is Mark. Mark has taken the torch and is running with it. YHVH is not finished using the Flynn family for his glory, not even close to being finished. David and Mark are being used to leave a legacy for YHVH that will not only be used through their generation, but by many generations of Flynn’s to come, should Yeshua tarry in His return. What an honor it has been for me to be used by YHVH for his purpose, and also to know David and Mark Flynn. I’m sure that when we all get to Glory, we will be able to fellowship again, all of us together, and we’ll glory to know in visage the one whom we have had faith in all of these years. The best is yet to come.
