

Intention of Abductions And Their Spiritual Implications.

By Robert Young

Below is a letter that I received from a man named Robert who has had some very interesting experiences with abductions. He'll prove what the aliens are really up to.

What I am going to tell you is going to sound crazy but it's true!

First of all, these creatures have plagued me since as far back as I can remember, at least since I was 5 years old. The earliest recall that I can make of them is when I was 5 years old, when in the middle of the night I was awakened by one shuffling around in my room.

Anyway, to make a long story short, in July of 1993 I was sleeping and was awoken by a loud bang! I was 25 years old when this happened. I got up and checked the house and yard figuring someone was trying to break in.

I went back to bed when I realized a raccoon was in my trash can again. I lived in a small farming community in central Illinois at the time. When I went back to bed, I noticed it was 1:46 A.M. in the morning. Sometime after that during the night I had a very vivid dream and it goes like this:

In my dream I was awoken again by the sound of a large bang! while lying in bed I glanced up at the ceiling and noticed that it didn't look right. That is when they came through the ceiling, these creatures, the classical alien with the black eyes and large head. One came down and looked right at me in the eyes, and I was scared stiff, but I promised myself the next time I was going to resist their influences.

That was when I rolled out of bed and onto the floor and then sprang up on both feet! Well to say the least that was when I sensed fear from them! Another one came through my ceiling and was a little more powerful than the other and together I couldn't resist them. I was taken to a place very dark meaning not too much light, but all in all this place was a modern

looking area with walls that were like ours flat, squared off, but the walls seemed to absorb light somehow, looking very black but still with definition as to its dimensions,

I got loose somehow and these creatures chased me, well I was running anyway and they were just gliding along. So, they finally cornered me and mentally projected a question as to why I was fleeing them and was so terrified, and that I was not like that before.

Quite honestly, I was not sure as to how I was able to resist them in the first place and I think this had a lot to do with it, because I conveyed that to them and also said I have always been fearful. They understood what I was trying to get across, but were still confused as to how I was able to resist.

I asked them why they have been messing with me all my life, and their thoughts came across like everybody that they interact with are chosen from birth because of certain traits that they harness from the creator, those traits are then studied, and manipulated by them so they may one day again be as equals.

Equals, what do you mean, I asked of them? And once again their thoughts came across like this; all humans are the ultimate life-force in the physical, spiritual, and dimensional worlds.

Okay, one more time, layman's terms, WHAT? Then once again their thoughts came across as when the creator created them, they were but mere conduits of divinity. They were the hands of what we call god. But when god created man, he gave man the likeness and the image of the creator.

Okay, well the last that I expected to hear from an alien was a sermon I thought to myself, as I thought that I picked up, though not purposefully directed at me, a sense humor that humans think they are aliens. How damned stupid and ignorant we humans are!

Just then I said verbally, what do you mean ignorant! They came across as they are not aliens! They are the ones that GOD cast down from heaven for them trying to take over. I then thought the aliens are the fallen angels!

They came back as yes! I said then what do you want with humans. They said that when they were cast down, God being merciful as he is, let them retain their powers but were forbidden to leave this plane of existence, this is how they are able, to manifest light vehicles, and

instruments, the other things associated with the current alien enigma that human beings find so realistic but unbelievable.

They went to say that they live in darkness and shadows because darkness is a dimension that science still has no clue exists. Everywhere you see a shadow, even in the day time is the dimension where these entities live. It is the home that GOD gave them dominion over, Darkness!

This is why they only come in the night, this is why they only come when you close your eyes, because of the dark. Yes when you close your eyes your subconscious (which by the way is the direct portal to the soul) becomes a gateway to a world that mankind has yet to even grasp it's wonders.

Anyway, these creatures have been studying mankind for millennium, trying to find out a way to obtain a way back to heaven because they still want to overthrow GOD! Because GOD made mankind in his likeness and his image, we have the means and the opportunity to become like god, if we would evolve spiritually instead of evolving technologically.

The aliens (fallen from grace) have in effect a plan to accelerate mankind's spiritual energies and have begun doing so for about 50 of our years now. It is evident everywhere you look, humans are becoming more psychic every day (this was the reason I was able to resist them) the human body is being pushed farther that it ever has. What I suspect is that as humans become more aware of their surroundings and more conscious of the forces that are around us, humans will naturally be drawn towards god, and I'll tell you why I feel this.

While I was conveying with these aliens another one came from behind and tried something with me physically and I freaked out and kneeled down and said out loud GOD please help me! At that instant an extreme light force of immense power came from my heart as if someone turned on a light! This light came from my heart area and I was soon aglow within a few milliseconds and this force came rushing from me in all directions like a flash from a camera and everything aliens, the world I was in, the walls, I mean everything exploded around me and vaporized in front of my eyes! I then seen through the light a being that said to me, thank you for calling me. That was when I woke up from one of the most horrific and most spiritually enlightening moments in my life!

I can truly say that I know for sure there is a creator and a God because he spoke to me.

Thanks for reading it's all true, unbelievably true!
