

## **Is Planet Seeding Evolution's Salvation?**

By David Ben Ya'akov

© 2002/2019 David Ben Ya'akov / The Delusion Resistance

If you've been around this website you have probably noticed that the content primarily deals with exposing Evolution and the existence of Extraterrestrials as a lie perpetuated to deceive mankind into believing a delusion. The grand scheme of that delusion is to convince man through deception that there are many ways to happiness and a good wholesome life. The steadfast belief in the Bible and the Messiahship and divinity of Jesus Christ are mocked and ridiculed and those who hold such beliefs are basically referred to as morons and intolerant hypocrites.

In recent years, however, God has given wisdom to many who have seen the charade of the Evolution and Extraterrestrial lie. Many good and solid points and pieces of evidence have been shown both through Biblical means and good old common sense. Because so many counterpoints have been raised against both of the lies, the exposure of those lies has caused the liars to go into overtime to produce new lies to back up the old lies. Hence, we have what is now known as Planet Seeding.

Before we go on, it is interesting to reflect on something. You see, for years most of those in the Evolution camp would have nothing to do with those in the UFO camp. They thought of those in the UFO camp as lunatics who were delusional and possibly even psychotic. Yet while they were regarding the UFO folk with such disdain, they were spinning their own humongous psychotic fairytale. Sort of reminds one of the old adages of the pot calling the kettle black. Perhaps though it was something of a more monetary nature. Perhaps there was an issue of which story would get the most grant financing from those who give money to such causes. In any case, and for the most part, there were two separate camps.

Most of us who were taught about World War Two before the liberals revised history, remember that Germany and Japan formed an alliance to fight the Allied powers. But one thing that people might not take into account is that the German leaders were racists and really had no regard for those of the Asian race. In turn, the Japanese thought of Europeans as "White Devils,"

and had no regard for the West. So why did they join forces? Because they had a common enemy. In order to survive, they had to lay aside their differences to achieve what they perceived as a common good. The same tactic is being used by those in the UFO and Evolution camps. Christianity and Biblical Scientists are coming against both of them and they are joining their philosophies to combat a very real threat. The only way that the evolution delusion can survive, or so they think is to make Evolution celestial in nature. The facade of Planet Seeding is a very logical way to continue both the UFO and Evolution lies.

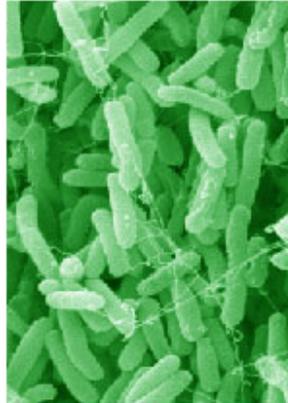

If one looks into the UFO realm and what has been said for years, you will find that there has been a suggestion of Planet Seeding for quite a few years. This is because those who channel beings who call themselves “ascended masters,” also call themselves, “aliens,” and they have been sending the message of planet seeding to their unwitting pawns all along. Those pawns, “channelers,” have been writing books and such and offering ideas, such as Planet Seeding, to anyone who will listen. Sort of like the “Prophets of Baal,” mentioned so many times in the Old Covenant, they chip away at disbelief until any foundation of common sense has been taken away.

Now, we know and can see that Evolution in its present Darwinian form is dying a slow and agonizing death. No transitory forms are ever found, dating methods are never found to be correct and the thinking public just can't be convinced anymore because they too see the lies changing from year to year. No two scientists can say the same thing for very long. This sort of reminds me of the account in the Bible where God caused confusion in the camp of Israel's enemies and those enemies all killed each other. It is in the best interest of Evolution that they meld with something else to keep the lie alive, and planet seeding will do more to keep Evolution's lie perpetuated because it builds on a whole new faulty foundation, that being an extraterrestrial one.

## What Is Planet Seeding?

Planet Seeding is a term that is used by The New Evolutionists and the UFO community to convey the belief that some advanced race of extraterrestrial entities placed organisms on Earth to begin the evolution process. Now this sounds like a fantastically crazy notion and the stuff that science-fiction novels are made of. What would make supposedly intelligent people come up with a notion like this? The answer is, “the lack of time.” It’s quite easy to understand. Evolution in it’s Darwinian form needs a lot of time to accomplish it’s fete. When you are talking about millions, or perhaps billions of mutations (that we all know are harmful or fatal to organisms), that would have to occur to make evolution a reality, there is just not enough time to make it believable anymore. Evolutionists have pushed the envelope of believable time origins to the limit and they know that making the Earth even older than they claim today would make those who have been duped to start to doubt it’s believability. The fact is that even in it’s present thought, evolution could not have happened and the quotes below show it is mathematically impossible:

*“... Life cannot have had a random beginning ... The trouble is that there are about two thousand enzymes, and the chance of obtaining them all in a random trial is only one part in 10 to the power of 40,000, an outrageously small probability that could not be faced even if the whole universe consisted of organic soup. If one is not prejudiced either by social beliefs or by a scientific training into the conviction that life originated on the Earth, this simple calculation wipes the idea entirely out of court ...” (Fred Hoyle and Chandra Wickramasinghe, Evolution from Space)*

*“The chance that useful DNA molecules would develop without a Designer are apparently zero. Then let me conclude by asking which came first – the DNA (which is essential for the synthesis of proteins) or the protein enzyme (DNA-polymerase) without which DNA synthesis is nil? ... there is virtually no chance that chemical ‘letters’ would spontaneously produce coherent DNA and protein ‘words.’” (George Howe, expert in biology sciences)*

You can read many more such quotes by going to the Category section of the website on the main page

Think about it, the chances are 1 in  $10^{40,000}$  that life could evolve in a random way; that is, by accident and without a creator. That number is infinitely larger than all of the atoms that comprise everything in the universe. The calculation below concerning the number of atoms in the universe was found at:<http://pages.prodigy.net/jhonig/bignum/qauniver.html>

#### *Atoms in the Universe*

*$10^{66}$  estimates the the number of atoms in our galaxy to be in the area of  $10^{68}$  and, if dark and exotic matter are considered, then their numbers are possibly close to  $10^{69}$ .*

*In  $10^9$ , it is stated that there is a wide range of estimates given for the number of galaxies in the universe. Some put the number in the very low 100 billions, others bring it much closer to the one trillion mark.*

*The size of other galaxies range from one million to hundreds of billions of stars. The mass of some of the largest galaxies is trillions of times the mass of our sun. Again, it is supposed that much of this mass consists of dark and exotic matter.*

*If we consider our galaxy to be of average size, and use the highest estimates for both the number of atoms in our galaxy and the total number of galaxies, then the universe would contain about one trillion times the number of atoms as our galaxy. Since our galaxy probably has no more than  $10^{69}$  atoms, this would mean that at most the universe contains  $10^{69} \times 10^{12}$  atoms in all. This works out to be just under  $10^{81}$ .*

*If we use lower estimates for the number of atoms in our galaxy and total number of galaxies, then the total number of atoms would be as much as 20 times less, or within the area of  $10^{79}$ .*

*Hence, "atoms in the universe" belongs on this page which spans from  $10^{78}$  to just under  $10^{81}$ .*

To put it in other terms. Let's say that you filled the whole universe with ping-pong balls. There is only one red ball in all of the universe and the rest are white. You have a better chance of diving into the mass of balls with your eyes closed and picking the red ball on the first try. Of course, the odds are much greater, but we have to relate these things in terms we all can understand.

Thus, the possibility of evolution occurring by accident without any intelligent creator is foolishness to say the least. Evolutionists know that a lot of people are getting wise and that we know that the yarn that they spin can't possibly be true, so they are now starting to adhere to the Planet Seeding fairytale.

### **Why That Dog Won't Hunt:**

The numbers above are the reason why Planet Seeding can't be a reality. If the chances of it happening here are astronomical, or better yet impossible then they have to be that way throughout the universe. If evolution was impossible in every other world in the entire universe, then there can't be any other race that could have seeded the Earth.

Evolution has recently been taking it's last dying breaths. I know that some of you remember the old "Get Smart," comedy series on television. One thing that the main character tried to do a lot was to convince his adversaries that they were outnumbered. He would say something like, "you better give up because as we speak this building is being surrounded by a company of soldiers." His enemy would doubt what he said, then he would utter, "would you believe 50 police officers?" and the enemy would still not believe him. He would go down the line until he uttered something ridiculous like, "would you believe a troop of fierce girl-scouts?" At this point, it was so utterly stupid that it got a big laugh out of people who were watching the show. Well, the same thing is happening with evolution. First, it was, "the Earth is 3 billion years old." Next, they said, "would you believe 4.5 billion years?" Now they are saying, "would you believe planet seeding."

Now I made that illustration to prove how utterly stupid Evolution is and how lies have to cover up more lies. As the lies progress, they tend to become more unbelievable, especially if one listens closely and examines them in the context that they are given. The first character that I mentioned above was a comedic one and was supposed to be funny. But the sad truth is that although the Evolutionists' claims are stupid they seem to be believed by many in the general populace. I think that some of the reason for this is that people respect those with educations and believe them. The other reason is that people have itching ears and want to hear things that only appeal to their lusts and desires. The belief in God and the Bible would cause them to have personal responsibility and to be answerable to a higher standard, and a higher authority, and Lord knows that most won't stand for that. The Bible is quite emphatic about this when it says:

*For the time will come when men will not put up with sound doctrine. Instead, to suit their own desires, they will gather around them a great number of teachers to say what their itching ears want to hear. They will turn their ears away from the truth and turn aside to myths. 2 Timothy 4:3-4*

And because people don't really want to hear the truth and turn away from lies, God says:

*Don't you remember that when I was with you I used to tell you these things? And now you know what is holding him back, so that he may be revealed at the proper time. For the secret power of lawlessness is already at work; but the one who now holds it back will continue to do so till he is taken out of the way. And then the lawless one will be revealed, whom the Lord Jesus will overthrow with the breath of his mouth and destroy by the splendor of his coming. The coming of the lawless one will be in accordance with the work of Satan displayed in all kinds of counterfeit miracles, signs and wonders, and in every sort of evil that deceives those who are perishing. They perish because they refused to love the truth and so be saved. For this reason God sends them a powerful delusion so that they will believe the lie and so that all will be condemned who have not believed the truth but have delighted in wickedness. 2 Thessalonians 2: 5-12*

And with still a lack of repentance, this is what happens:

*This know also, that in the last days perilous times shall come. For men shall be lovers of their own selves, covetous, boasters, proud, blasphemers, disobedient to parents, unthankful, unholy, Without natural affection, trucebreakers, false accusers, incontinent, fierce, despisers of those that are good, Traitors, heady, highminded, lovers of pleasures more than lovers of God; Having a form of godliness, but denying the power thereof: from such turn away. For of this sort are they which creep into houses, and lead captive silly women laden with sins, led away with divers lusts, Ever learning, and never able to come to the knowledge of the truth. Now as Jannes and Jambres withstood Moses, so do these also resist the truth: men of corrupt minds, reprobate concerning the faith. But they*

*shall proceed no further: for their folly shall be manifest unto all men, as theirs also was. 2 Timothy 3: 1-9*

### **A Call to The Truth:**

At the time that I write this page I have been on this Earth a short forty-three years. There have been so many changes in American society during that time. Crime has increased, children have become extremely rebellious and people in general have become callous and unloving. All of these things were prophesied to happen. Some might deny what I have said, but statistics don't lie and can't be ignored. Society is not getting better but is on a fast train to anarchy, and dare I use the phrase, on a fast road to hell!

My dad made a remark to me just before his death that has stuck with me and caused me to ponder many things. One day, out of the blue, he said, "the America that I grew up in is not the same one that we live in now." We have to look at what is different between then and now. The hearts of people could not have just changed without some sort of change in society. We have to examine what might have been added or subtracted from society to make it the way that it is.

<b>Dad's Childhood The 1930's</b>	<b>My Childhood The 1960's and 1970's</b>	<b>Today's Generation The 1980's thru Present</b>
God revered and honored – Allowed and promoted in school. God and Church a way of life, both public and private.	God and Prayer removed from schools. God still allowed in some instances in schools, but prosecution threatened. Evolution taught in school	God and Bible banned from school. Violators prosecuted in a court of law. God banned from government places. Christianity mocked, called intolerant.

Vast Majority attend Church	Most attend a church	Very small Church attendance
Children respect parental authority	Children respect but later question parental authority.	Children deny parental authority – Kids receive more rights than parents
Very little drug abuse – seen as a societal taboo	Moderate to heavy drug abuse – Push to legalize drug abuse.	Rampant drug abuse – abuse condoned as a societal disease
Teen sexual activity seen as a sin and very rarely practiced	Teen sex practiced, but not condoned by society. Still taboo	Teen sex rampant. Seen as a sign of the times, condoned and sometimes encouraged.
Microscopic percentage of teen pregnancies and unwed teen mothers. Abortion Illegal!	Teen pregnancies on the rise. Many aborted after 1972 abortion legalization. Leap in unwed teen mothers, from 1970's and onward	Teen pregnancies commonplace with acceptance growing every year. Unwed teen motherhood is generally a commonplace.
Sexually transmitted diseases rare and an embarrassment. Teen STD percentages too small to	STD rates on the rise. More resistant strains because of multiple sex partners and infidelity. People not so	STD's are on a rampant rise. Monogamy is rare and even ridiculed. New diseases – AIDS, Herpes and new

measure. Monogamy is practiced and revered.	embarrassed by having an STD	strains of old venereal diseases
Politicians are seen as examples to children, adults, and society.	Politicians still are seen as examples but questions about their morality arise.	Politicians mostly corrupt. Set bad example for children, adults, and society.
Patriotism alive – God and country revered, loved and respected	Patriotism wanes – The thought of globalism starts to creep in.	Leftist agenda rampant. Push for global government supersedes national sovereignty and rights.
Healthy Society – Life, liberty, and the pursuit of happiness honored	The beginning of a sick society. Morals and values weakened and anarchy is beginning	Morbid Society – People are given over to the love of self. Socialist agenda with a denial of any divine authority. Government reigns supreme.

Looking at the facts above it is not hard to realize some very core truths. In the early 1960's the Supreme Court said that it was illegal to pray in school. In effect, they said that God wasn't welcome in school anymore. God never stays where He isn't welcome, so He sadly left. When a core truth is removed from a society, in this case, the schools, it leaves a vacuum. That vacuum was replaced with Evolution. But you have to realize one thing. Evolution cannot be backed up with facts and is only supposition, or perhaps the hope of those who claim to be scientific. Belief in something that cannot be seen or substantiated is called a FAITH, and the practice of a faith is called RELIGION! So, those who have gone to public schools since the early 1960's have been taught a religion, which goes against the corrupt manner that the socialist elite has twisted the Third Amendment of The Constitution of the United States.

The question is often asked why kids are acting the way they are today. Why do kids bring guns or knives to school and kill each other? Why are they joining gangs? Why are they out tagging every wall they find? Why is drug abuse rampant and teen sexual activity off the scales? The answer is quite simple. If you take a child from the time they are first able to understand anything. You tell them that there is no God, therefore there are no absolutes and no supreme being to answer to. You teach them that laws aren't really relative and that each person should cater the law to their own needs. Finally, you tell them that they have descended from animals and that because of that they are not special and that life really has no purpose. Taking all of this into account it is no wonder why today's kids are unruly, unloving psychopathic lunatics. My apologies to those kids who are normal and God-fearing, but you have to admit that most of those you know of are sort out there somewhere.

Now those who preach Evolution also know another fact. They know that there many in the American public who really don't like to think for themselves. They know that these people like it when so-called intelligent people explain things to them and that public takes the word of that intelligencia as gospel. Because of that, they write articles in newspapers and magazines, they broadcast on news networks and make documentaries for learning channels concerning Evolution and ufos. The articles are blatant and state things as fact. The documentaries usually pose questions to make people think and then state what they call fact.

Let's look at an example of one documentary. The document was about "Atlantis," and one of the features that they were examining is what is called "The Bimini Road." This structure (for lack of a better word) is located in the waters off of Bimini, an island in the Bahamas. The structure looks like a line of square blocks that leads out into deeper parts of the sea. The documentary had many people that tried to explain what the Bimini Road actually is. The UFO theory was advanced as well as the theories that it was a road in ancient Atlantis, or perhaps part of a wall to a structure in Atlantis. The idea that this so-called road was a fulfillment of a prophecy by the occultist Edgar Cayce, when he said that parts of Atlantis would rise in the 1960's, was really enforced. There was one man who was interviewed, who explained that it is a natural occurrence and that he has seen it in other parts of the world. He was given little time to explain his view and the viewer had already been prejudiced by all of the other supposed evidence that was presented before his was. I like to explain things using fonts. So, let me sum up the documentary like this. "There is a curiosity in the waters off of Bimini. *What do you think it is?* **IS IT OF ALIEN ORIGIN, OR PART OF ATLANTIS,** or could it be a natural phenomena?" Most people would pick the view that is most heavily enforced, and most people do because that

is what they are told, by people who supposedly know the truth. And, most people don't have a firm foundation on what they believe, if anything.

### **Will Planet Seeding Save Evolution?**

That question could be answered in a variety of different ways depending on who you ask. If you ask a person totally sold out to the UFO cult or the Evolution religion they would answer with a resounding yes. It is important to remember that those two fields are really religions and most of their adherents are as dogmatic if not more dogmatic than the basic Christian.

It is important to remember that Planet Seeding is a lie, perpetuated to save a lie, of a lie, of a lie... All lies come to the surface to be exposed at one time or another. We have the promise from God in the scripture above:

*But they shall proceed no further: for their folly shall be manifest unto all men.... 2 Timothy 3:9*

The important thing in all of this is that Christians remember that Evolution is a lie, that is dying a miserable death. When a person is dying in a hospital what do the doctors do? They do everything they can to keep that person alive because that is a doctor's mission in life. Sometimes doctors even use unorthodox means to cure their patient. Likewise, the doctors of Evolution are trying to keep their patient alive. They've doctored Evolution since its modern day birth. It's been a sickly patient, always needing a doctor to cure its ills, which are many. Now, their patient is old and feeble, ready to expire. So, why not give it a Planet Seeding transplant to keep it alive. Had a scientist gone before the scientific community thirty years ago with the Planet Seeding idea they would have been laughed out of the scientific world. But today, in desperation, anything is worth a try.

It is important that we keep our noses in our Bible because that is the only way that we will know of the lies that Satan tries to force upon the world. The Holy Spirit will instruct us in what is right and wrong where all worldly ideas are concerned. One of the things that the Bible has always reminded me of is a "fix-it manual." When I was younger I liked to work on my automobiles. In the manuals that were available for the cars, there was something called a "troubleshooting list." In that list, it would describe sounds or things you might see in the car's operation, and it would give suggestions on what the problem was, then it would point to a page

where you could find the process of fixing the problem. Here's an example of one such troubleshooting guide:

<b>Problem: Engine Overheating</b>	<b>Solution: What to fix</b>	<b>Page</b>
Water around radiator cap?	Replace radiator cap	23
Is there water in the radiator?	Replace coolant	24
Is water pump making noise?	Replace water pump	25
Is water pump belt broken or missing?	Replace belt	26

The Bible is a great troubleshooting guide. Just for the heck of it, let's look at an example, using the same format as above:

<b>Problem: Unsound Doctrine</b>	<b>Direction: Read Scripture</b>	<b>Solution</b>
Aliens say many ways to enlightenment	Read: John 14:6 – Jesus is The Way, the truth, and the life...	Disregard Alien message
Evolution claims Big Bang	Read Genesis Chapter 1 – In the beginning God...	Disregard Evolution's claim.
New Age claims Bible not valid	Read 2 Timothy 3:16 – All scripture is God Inspired	Disregard New Age doctrine.

Shirley McClain promotes Reincarnation	Read Hebrews 9:27 – Men die once and then are judged.	Disregard Reincarnation and Shirley McClain
--	---	---

So it's really quite simple. When a person is Born Again, and they read their Life Manual (The Bible) they equip themselves to know right from wrong. When that is coupled with the fact that the Holy Spirit dwells in us and guides us in all righteousness, we can't go wrong. When we know what is right, and something seems wrong, it probably is. That is when we go into God's word to find out why we have the feeling that that thing is wrong.

**I want to do what's right. What do I do now?**

The fact that you have read this far means that you want to know the truth, or if you are a Christian, you want to strengthen the faith that you have.

**First, let's talk about those of you who are not saved.**

Now, what do I mean by saved? First, you have to realize that every human who ever lived has been born with a sin nature. It is a natural tendency to rebel against God. Just read your newspaper and you'll agree with that statement. Just as you have inherited perhaps your father's nose or your mother's eyes, we all have inherited this rebellious ability, and we all use it.

Concerning how we are, The Bible says in Isaiah:

*All of us have become like one who is unclean, and all our righteous acts are like filthy rags; we all shrivel up like a leaf, and like the wind our sins sweep us away. Isaiah 64:6*

The correct translation of "filthy rags," in the scripture above is "used menstrual cloths." We all sin and anyone who says that they don't sin is a liar.

*If we claim to be without sin, we deceive ourselves and the truth is not in us. If we confess our sins, he is faithful and just and will forgive us our sins and purify us from all*

*unrighteousness. If we claim we have not sinned, we make him out to be a liar and his word has no place in our lives. 1 John 1:8-10*

God knew that sin had to be atoned for, and starting with Moses, God instituted a list of laws that people should live by. At the same time, he knew that since mankind was in a fallen state, it could not keep the commandments. So, God instituted a procedure of sacrificing animals to atone for sin. Since agriculture was the mainstay of society at the time, the giving of an animal for sacrifice was a very significant price to pay for the sinner. But God knew that the only sacrifice that could satisfy the need for permanent forgiveness would be one that He could give. So, He became a man, and let unknowing men sacrifice Him on the cross for the forgiveness of you and I. As Hebrews so aptly put it:

*For when Moses had spoken every precept to all the people according to the law, he took the blood of calves and of goats, with water, and scarlet wool, and hyssop, and sprinkled both the book, and all the people, Saying, This is the blood of the testament which God hath enjoined unto you. Moreover he sprinkled with blood both the tabernacle, and all the vessels of the ministry. And almost all things are by the law purged with blood; and without shedding of blood is no remission. It was therefore necessary that the patterns of things in the heavens should be purified with these; but the heavenly things themselves with better sacrifices than these. For Christ is not entered into the holy places made with hands, which are the figures of the true; but into heaven itself, now to appear in the presence of God for us: Nor yet that he should offer himself often, as the high priest entereth into the holy place every year with blood of others; For then must he often have suffered since the foundation of the world: but now once in the end of the world hath he appeared to put away sin by the sacrifice of himself. And as it is appointed unto men once to die, but after this the judgment: So Christ was once offered to bear the sins of many; and unto them that look for him shall he appear the second time without sin unto salvation. Hebrews 9:19-28*

And again, let's look at what John tells us again in his epistle:

*My dear children, I write this to you so that you will not sin. But if anybody does sin, we have one who speaks to the Father in our defense—Jesus Christ, the Righteous One. He is the atoning sacrifice for our sins, and not only for ours but also for the sins of the whole world. 1 John 2:1-2*

God has made some really great provisions for us. But there is something that we need to so in order to get what God has done for us. The Salvation of God is a gift, and the gift has to be received and recognized by the recipient. It has to be treasured above all things. Simply put, if you believe and you receive then it only acknowledges the gift and be eternally thankful. Remember when you were a child and the holidays rolled around. There was always one special

gift that you wanted and you made your parents quite aware of it. I remember one Christmas quite clear. There was this toy soldier rifle that I wanted. This gun did everything. It was the last present that I got that Christmas and I loved it. My mom and dad were the best people on Earth for buying me such a great gift. I made sure that I showed it to everyone and I even think that I slept with it at night. That is the way that God wants us to cherish the gift that He gave for us. Now, I don't want to go into this too much because I have a page that explains it all; what to do, how to do it and how to proceed after that. you access that page by going to the site main page and clicking on the "saved" option at the top.

### **For Born Again Christians:**

I know that by titling this section for Born Again Christians I might offend people. Jesus offended a lot of people too, so why should I be different than my Lord. Simply put, if you haven't had a rebirth by the Spirit of God (the Holy Spirit) then you're only a Christian by name. If one is born in a Bagel shop, does that make him/her a bagel? Certainly not. Jesus said you must be born again so it must be right.

Anyway, back to the message for Christians. I encourage you to pray about what you have read here. If you feel led, go to the rest of the pages on this site and check out the other articles and the links to other pages. I pray that His Spirit will lead you in all righteousness. Check everything you read here with what is in His Word. If you ever find anything here that isn't backed up by scripture or if you find such things anywhere else in life then discard it.

It is important that we get the word out about Evolution and UFO's because they are two areas of society that are coming against the Church and Gospel of Jesus Christ. Many churches and pastors haven't been too eager to teach or even research these subjects because they are too controversial. But let's not forget that the words of Jesus were controversial back when He preached and many denied themselves salvation because of that sort of action. There are many speakers about both subjects that travel to churches to share and what they have to say is very insightful.

It is important for those of you who have children and grandchildren, to teach them the truth. Bible reading should be homework for the kids and the parents. Imagine how close a family could get if they discussed what they read in God's word. Shut off the television, radio, stereo and computer and bond with each other using the only tie that binds; Jesus Christ!!!

Study a lot about these two subjects. Search your Bible for answers like your life depends on it because, in all actuality, it does. We must be prepared to give account for what we believe because an increasingly sophisticated world demands sophisticated answers, or at least answers that sound that way. Use analogies that apply to the people that you are talking to. You wouldn't use construction analogies when talking to ladies, or ballet analogies when talking to a football team. Use common sense; God gives it freely. Like Paul said, He became all things to all people to get the message out.

And for goodness sake, don't make the mistake of going in with the "holier than thou mighty Joe Christian," attitude. You'll lose their interest before you even open your mouth. And pray before you do anything and don't forget the armor of God talked about in Ephesians chapter six.

Finally, it's time to stop fooling around. Get out of worldly affairs and don't imitate the world. The word Christian means, "Christ-like," so let's start being Christ-like. Stop trying to keep up with the Jones' because if you don't get them saved, the Jones' are going to hell. For goodness sake forsake opulence. There's no reason for a Christian to drive an expensive car and own the best house in the neighborhood, especially when their brothers and sisters are living in their cars and can't even feed or clothe their children. And let us not forget that Christianity knows no national boundaries. We're Christians first and the nationalities come later if they are needed at all. Use common sense. Whenever you're doing something remember that Jesus is right there with you. So when you watch that unholy thing on television or at the movies, or you read something that is unbecoming a Christian, Jesus is right there. Like the scripture says, "be doers of the word, not just hearers."

Thank You for reading this and I pray a special blessing on all readers. May you know Him and serve Him today, tomorrow and for eternity.

David Ben Ya'akov
